MEMORANDUM FOR: Executive for A & M  
Executive for I & S

I noticed in reading over the [ ] case that there is some evidence that undue favoritism is rearing its ugly head.

Will [ ]<sup>25X1</sup> please make up a circular for my signature, for distribution to all Central Intelligence Agency employees, condemning such practices, and explaining that no promotions, assignments to duty, allocations of work, leave, etc., are made on any other basis than that of merit, which is to be considered as inclusive of the characteristics of ability, industry, integrity, loyalty, length of service, promptness as well as those other unnamed characteristics that constitute a good employee.

The exercise of any undue favoritism in promotions, etc., may make the supervisory official subject to dismissal.

Will Colonel Edwards make a discreet, not formal, investigation to look into any cases of favoritism that may have already occurred.

Except in extraordinary cases, all notifications of clearances will be written.
